

High performance MCBs

S800U series PVS characteristic

S804U

S800U PVS characteristic - Ground fault detector interrupter (GFDI)

Function: string protection.  
The S804U-PVS5 is for string protection in photovoltaic systems.  
In case of reverse currents, the breaker wil trip. Thus the PV generator will not be damaged.  
The breaker is tested acc. to UL489B for 1000 V d.c.
